As a bride you're going to invest a lot into your wedding, both time and money. You've searched the world over for the perfect dress, the freshest flowers, and the breathtaking venue. You've spent months, even years dreaming about this day, a vision of what will be. Each wedding is unique and unfortunately, it goes by in a blur. With all of the hustle and bustle of their special day, brides and grooms rarely get to see the fruits of their labor- the flower girl primping in the mirror, guests settling into their seats, a shy bridesmaid before her toast.

That's where Blue Ridge Films comes in. We want you to be able to relive the nervous laughter, the quiet vows and fumbling hands when your kids can't imagine what you and dad looked like, much less acted and sounded like back in your day. Investing in your wedding video means you get to cherish, remember, and relive one of the happiest moments of your life.
